3M™ Floor Protection Systems

Long-lasting beauty that cuts your cost to clean.

First impressions are important, and your Noors are one of the first things people see when they enter your facility. They need to reNect your image in the best possible light. Introducing 3M™ Floor Protection Systems—complete, scientifically designed systems that magnify the natural beauty of your stone and resilient Noors and then *keep* them that way, while improving safety, reducing chemical use and minimizing labor. The result is Noors that put the shine on *you*.

Exceptionally durable

3M Noor protector chemistries are patented with nanotechnology to help create a brilliant protective surface.

For porous stone Noors

Concrete

Marble

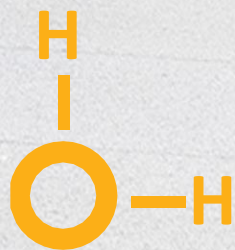

Terrazzo

Travertine

Limestone

Fewer chemicals

Reduces the need for stripping or deep scrubbing once your Noors are protected.

High traction

Certified by the National Floor Safety Institute (NFSI) for "high traction."

Easy maintenance

Simply dust or damp mop with 3M™ Neutral Cleaner to maintain the beautiful finish.

Sustainable

3M Noor protector chemicals are environmentally preferable formulations that are zinc free and low odor.

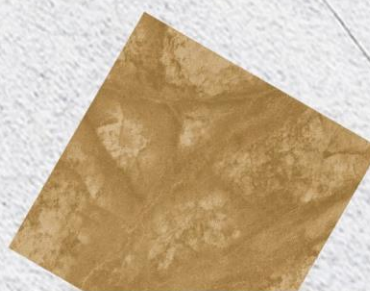

For all resilient Noors

VCT

Vinyl Tile

Luxury Vinyl

Linoleum

Sheet Vinyl

3M™ Resilient Floor Protection System

Reflecting a more sustainable image.

Durable, easy to install and cost effective, resilient materials are some of the most popular Nooring choices available today. But resilient Noors have a tendency to scuff, stain and pick up black marks easily. And maintaining the shine with conventional acrylic finishes requires frequent stripping with harsh chemicals to remove buildup.

The 3M™ Resilient Floor Protection System changes everything. It's engineered to maximize the beauty and safety of resilient Noors, while making day-to-day maintenance fast and easy.

- Features an exceptionally durable protector that's four times more resistant to abrasion than acrylic finishes and dramatically reduces the need for stripping chemicals.
- The revolutionary 3M™ Easy Shine Applicator Kit can slash application labor costs by as much as 70%.
- It's a complete, sustainable system for making resilient Noor care simpler and more cost efficient.*

*Compared to traditional acrylic Noor finishes.

Apply the durability.

Beautiful, low-maintenance resilient Noors start with Scotchgard™ Resilient Floor Protector. This patented, nanotechnology formula is scientifically designed to create an exceptionally hard, protective surface that retains its gloss and resists black marks.

- The 3M™ Easy Shine Applicator Kit makes application faster, simpler and safer than messy mops and buckets.
- Initial hardness also builds 40% faster than acrylic finishes, so you can return your Noors back to use sooner.

Certified by the National Floor Safety Institute (NFSI) for "high traction."

Cut the chemicals.

Create a brilliant, natural-looking shine without stripping or deep scrubbing—eliminating exposure to potentially hazardous chemicals. Scotchgard Resilient Floor Protector can reduce your chemical usage by up to 60% (see chart below).

Annual Chemical Use in Gallons

Simplify maintenance.

Once your Noors are protected with Scotchgard Resilient Floor Protector, maintaining the beauty is fast and simple. Black marks, scuffs and stains come off easily. And a single coat of Scotchgard Resilient Floor Protector once or twice a year is often all you need to maintain the beauty.

1. Use 3M™ Easy Sweep and Dust to make quick work of daily dusting.
2. Damp mop or wash with the 3M™ Red e Pad 5100 and 3M™ Neutral Cleaner.
3. For deep cleaning, use the 3M™ TopLine Autoscrubber Pad 5000.

3M™ Stone Floor Protection System

Durable, easy maintenance Noors that make *you* shine.

Stone is the ultimate in Nooring materials. Whether quarried from natural rock or created from composites, it comes in almost infinite colors, textures and patterns. Properly maintained and cared for, no other Nooring material can give your facility a more impressive image.

The 3M™ Stone Floor Protection System is scientifically designed to maximize the beauty, safety and easy maintenance of stone Noors. It features the extreme abrasive power of 3M™ Trizact™ Abrasive Pads for restoration, the advanced hybrid technology of Scotchgard™ Stone Floor Protector, and the proven performance of 3M™ Floor Pads, Cleaners and Application Systems. It's the complete stone Noor system that reduces chemical use, boosts productivity and helps cut your cost to clean.

Certified by the National
Floor Safety Institute (NFSI)
for "high traction."

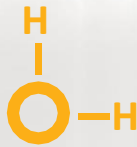

Restore the finish fast and sustainably.

Give your worn stone Noors a bright new life with 3M Trizact Diamond TZ Abrasive Pads. These advanced technology abrasives feature micro-engineered surfaces that cut fast and stay sharp, allowing you to bring out the original, natural beauty of your stone quickly and efficiently without harsh chemicals or the dust created during the traditional grinding process.

Environmentally preferable components in the stone Noor protector reduce the need for stripping or deep scrubbing, ensuring a safer, more sustainable process—as well as a remarkable shine.

Densify your stone.

Just two coats of Scotchgard Stone Floor Protector creates an NFSI-Certified “high traction” surface that not only looks stunning, but also helps prevent slips and falls. That’s because Scotchgard Stone Floor Protector is not a Noor finish or polish. It’s a unique, hybrid technology that actually densifies and hardens your stone Noors, leaving a glossy, natural-looking shine with superior traction.

- Quickly and efficiently applied with the 3M™ Easy Shine Applicator Kit, a unique backpack system that makes mopping obsolete.
- Makes stone Noors highly resistant to scuffs, black marks, stains, scratches, soil, water and even corrosive hand sanitizers—for six months to a year without recoating.

Maintenance made easy.

Keeping your stone Noors in tip-top condition should not be a grind. That’s why 3M has designed a simple maintenance program that helps improve staff productivity and reduce cost:

1. Make quick work of daily dusting with the 3M™ Easy Trap Duster – Sweep and Dust Sheets.
2. Damp mop or autoscrub with the 3M™ Red Buffer Pad 5100 and 3M™ Neutral Cleaner.
3. Burnish with 3M™ Tan 3400

3M™ Floor Protection Systems — Ordering Information

Scotchgard™ Resilient Floor Protector is a proprietary, high performance, water-based Noor coating that protects and enhances the appearance of linoleum, vinyl tile and sheet vinyl. Recommended coverage 2,000 square feet per gallon when applied with the 3M™ Easy Shine Applicator. NFSI-certified high traction.

1 gallon bag, 2/case, Product #85861

2.5 gallon jug, 2/case, Product #85880

3M™ Easy Shine Applicator Kit helps reduce worker exposure to Noor finish and accelerates application compared to traditional mop and bucket methods.

Applicator with 18" pad, 1/case, Product #55433

3M™ Tan Burnish Pad 3400 combines black mark removal and gloss generation.

Multiple sizes available, 5/case, Product #3400

3M™ TopLine Autoscrubber Pad 5000 is designed for deeper cleaning of Noors prior to burnishing.

Multiple sizes available, 5/case, Product #5000

3M™ Red Buffer Pad 5100 is designed for everyday cleaning and light scrubbing to remove light soil, scuff marks and black heel marks.

Multiple sizes available, 5/case, Product #5100

3M™ Easy Shine Applicator Pad is a washable and reusable 18" pad for the 3M™ Easy Shine Applicator.

18" pads, 10/case, Product #59646

3M™ Easy Trap Duster – Sweep and Dust Sheets are specially developed disposable sheets that simplify removal of dust, dirt and sand from Noor surfaces.

8" x 6" x 30', 60 sheets/roll, 8 rolls/case, Product #59152W

8" x 6" x 125', 250 sheets/roll, 1 roll/case, Product #55654W

3M™ Neutral Cleaner Concentrate is a no-rinse, low-foaming formula with proven compatibility and will not leave residue that can cloud or dull the Noor appearance.

55 gallon, 1/case, Product #29644

2.5 gallon, 2/case, Product #59865

2 liter, 6/case (3M™ Twist 'n Fill™ System), Product #3L, 3H

0.5 gallon, 4/case (3M™ Flow Control System), Product #3A

Scotchgard™ Stone Floor Protector is a high performance hardener and protector for concrete, marble, terrazzo and other porous stone Nooring. Lower maintenance requirements than typical finishes; reduces Noor maintenance costs. NFSI-certified high traction.

1 gallon bag, 2/case, Product #86000

3M™ Trizact™ Diamond TZ Abrasive Pads are designed for refurbishing concrete, marble, terrazzo and other porous stone Nooring. Gold/Coarse, Red/Medium, Blue/Fine.

Gold Trapezoid, 4/box, 4 boxes/case, Product #86018

Gold Strips, 3.75" x 9", 6/box, 2 boxes/case, Product #86028

Red Trapezoid, 4/box, 4 boxes/case, Product #86019

Red Strips, 3.75" x 9", 6/box, 2 boxes/case, Product #86029

Blue Trapezoid, 4/box, 4 boxes/case, Product #86020

Blue Strips, 3.75" x 9", 6/box, 2 boxes/case, Product #86030

3M™ Electric Variable Speed Polisher is an accessory tool for Noor restoration and maintenance. Used to access stairs, corners and other tight spaces.

3M™ Electric Variable Speed Polisher, 1/case, Product #28391

3M™ Disc Pad Holder 7", 1/case, Product #917

3M™ Disc Pad Holder 4-1/2", 1/case, Product #9145

Scotch-Brite™ Sienna Diamond Floor Pad Plus is a diamond-coated pad that cleans and conditions worn and dull concrete, marble, terrazzo and other porous stone Nooring. Use prior to Scotch-Brite™ Purple Diamond Floor Pad Plus to bring Noor to a medium shine if 3M™ Trizact™ Diamond TZ Abrasive Pads are not used during the restorative process.

Multiple sizes available, 5/case, Product # varies

Scotch-Brite™ Purple Diamond Floor Pad Plus is a diamond-coated pad for periodic maintenance with low and high speed equipment to help bring Noors to a high shine.

Multiple sizes available, 5/case, Product # varies

Improve your image and cut your cost to clean with a scientifically designed system of Noor care.
