ECO-NATURAL™ STATUS

C516 INDOOR CYCLE

The SportsArt C516 Indoor Cycle combines self-powered performance with intuitive adjustability and engaging workout feedback. Fore-and-aft seat and handlebar adjustments help users achieve a personalized riding position, while lever-based resistance provides simple intensity control across 24 levels. A clear LCD console tracks workout metrics, and a six-color LED display visually indicates workout intensity. Dual-sided SPD pedals support varied riding preferences, while heart-rate telemetry and optional connectivity features add training flexibility. As part of the ECO-NATURAL™ Status line, the C516 operates without external power for greater placement flexibility and reduced energy use.
