

WAXIE Laundry & Warewash Systems

Foodservice and Hospitality Care Made Easy

What Makes WAXIE Ultra HC Right For You?

WAXIE Ultra HC is a full system of laundry and warewash products that are designed to integrate seamlessly into any facility care program. It isn't just a bottle—it's a complete program that encompasses high quality products, state-of-the-art dispensing technology, ongoing service and support, and on-site employee training.

The WAXIE Ultra HC Dispensing System is designed for efficiency, and its low dilution rates make programming and formula building easier than ever. And when ongoing preventative maintenance visits are included in the system, we ensure that things keep running smoothly and identify potential problems so they don't become bigger issues.

We believe your business is as important as you do, and we make sure you have the tools, training, and support to be successful and to keep your facilities cleaner, healthier, safer, more productive, and more sustainable.

Safety First

The WAXIE Ultra HC Dispensing System offers a much safer alternative to traditional open bottle designs. The system incorporates proprietary SafeLink Inserts to reduce the potential for chemical exposures as a result of any accidental spills or leaks. SafeLink secures the product to the dispenser and eliminates product contamination. The closed loop system prevents spills, injury, and waste, all while ensuring that the right amount of product is going into the machine without the need for complicated adjustments.

The WAXIE Ultra HC Advantage

The unique design of WAXIE Ultra HC products not only reduces environmental impact associated with cleaning products, but also reduces energy consumption and increases workplace safety.

Lower environmental-impact solutions must consider the complete picture, including manufacturing and end use. Using lean manufacturing practices, we deliver preferred environmental solutions for your cleaning needs. We reduce our environmental impact by:

- » **Reducing fuel consumption for freight and delivery.** Compact concentrates take up less space and weigh less than standard counterparts, which requires fewer trucks to ship them.
- » **Reducing operational energy use** through product selection, training, and consultations. This alone can save thousands of dollars. BradyPLUS takes into consideration all angles of energy consumption and provides the best formulas for overall energy reduction while maintaining quality cleaning results.
- » **The WAXIE Dispenser Program** Dispensers are installed at no charge and maintained with the use of WAXIE Cleaning Solutions chemicals.

Less is More

Because WAXIE Ultra HC is superconcentrated, there is less chemical in our 1.5 gallon bottles that use less packaging while delivering the same punch as a typical 5 gallon drum. This means you can use less storage space, dispose of less plastic, and use less water while using a lighter bottle that reduces employee strain for more cost savings and increased safety.

Hyper-Concentrated Laundry Solutions

Laundry products specially formulated to save you money, our value line of products are specifically formulated to provide the deep clean that you expect, but at a fraction of the cost. These products work well in any water condition: soft, hard, hot or cold.

Pre-Spotters

Pre-spotters are your first line of defense against stains. Simply spray the affected area, allow the chemical to permeate the fabric, and launder as normal. Pre-spotters can save you time and reduce your water usage.

WAXIE Emulsifier Pre-Spotter
537786 1 qt, 6/cs

WAXIE Iron & Rust Pre-Spotter
537766 1 qt, 6/cs

WAXIE Enzyme Pre-Spotter
537776 1 qt, 6/cs

Did you know?

- WAXIE Ultra HC's self emptying 1.5 gallon bottles make recycling easier than ever
- When you use WAXIE Ultra HC products, you can transport more product than standard 5 gallon containers and stay under U.S. D.O.T. 1000 lb. guidelines

Bleaches, Brighteners & Destainers

Laundry Detergent

Fabric Softeners

Sour & Rust Removers

WAXIE Ultra HC Color Safe Bleach Fabric Brightener

Contains no phosphates: 100% biodegradable. Color safe, excellent for use in high iron water conditions. Safer than ordinary bleaches on all colors and permanent press fabrics. *

533082 case 1.5 gl/cs

WAXIE Ultra HC Laundry Destainer Concentrated Chlorine Bleach

Super concentrated laundry bleach for added destaining of linens, sheets, and towels. Superior stain lifting power on all white linens. Do not use on synthetic fabrics. *

533075 case 1.5 gl/cs

WAXIE Ultra HC Laundry Rust Removing Sour Laundry Sour and Iron Controlling Agent

Effectively neutralizes any alkali detergent build-up, improves whiteness and brightness, and eliminates the build-up of rust and iron deposits on most washable fabrics. *

533081 case 1.5 gl/cs

WAXIE Ultra HC Laundry Sour Soft Neutralizing Softener

High concentrate product that neutralizes caustics and alkalinity. Speeds extraction, drying, and reduces static electricity. Softens, brightens and deodorizes. *

533073 case 1.5 gl/cs

WAXIE Ultra HC Laundry Sour Neutralizer

High concentrate product that neutralizes caustics and alkalinity. Speeds extraction and drying while improving laundry feel. *

533083 case 1.5 gl/cs

WAXIE Ultra HC Laundry Sizing Starch

Super concentrated laundry starch. Used in commercial washer/extractors for a crisp finish to food and beverage napery, table linens, and all starchable fabrics. *

533077 case 1.5 gl/cs

WAXIE Ultra HC Laundry Softener Premium Liquid Fabric Softener

Speeds extraction, drying, and reduces static electricity as well as adding softness to linen. Light floral scent adds a touch of freshness to all washable linens. *

533080 case 1.5 gl/cs

WAXIE Ultra HC Laundry Conditioner Water Conditioner, Detergent Booster

Used in conjunction with Break and Detergent. Formulated to work effectively in hard water conditions to allow detergent to penetrate soils and allow for free rinsing of linens. *

533078 case 1.5 gl/cs

WAXIE Ultra HC Laundry Builder Alkaline Laundry Builder

Super concentrated detergent boosting alkali is specifically formulated for heavy duty laundry cleaning. *

533079 case 1.5 gl/cs

WAXIE Ultra HC Laundry Detergent

Super concentrated detergent is specifically formulated for cleaning cotton, polyester blends, synthetic and natural fabric. *

533074 case 1.5 gl/cs

WAXIE Ultra HC Laundry Break Builder

Super concentrated builder cuts through tough grease and soils, preventing redistribution and boosting detergent performance. Safe for all colors and types of fabric. *

533076 case 1.5 gl/cs

Service That Shines

Quality cleaning solutions mean nothing without a responsive, knowledgeable service team to keep things running smoothly. Emergency service is where we shine.

Our Service Technicians will be there when you need them. With fully stocked service vehicles, replacement parts, and dispensing systems that enable us to resolve any issue quickly and efficiently, we minimize downtime. Because at BradyPLUS, we know that when your equipment isn't working properly your business isn't working properly.

We'll do whatever it takes to keep you and your business fully operational—including on-site training to use any and all of our products and programs.

24 x 7 x 365 Emergency Service

Something not quite right? Our service line is always there to help answer any questions.

Contact your Service Technician | (800) 870-8508

Keep Your Facility On Track

Using preventative maintenance and an electronic service program to monitor the facility operations maintains cleanliness standards and promotes efficiency in cost management.

Our Service Technicians are dedicated to preventative maintenance and are trained and certified on all pieces of equipment. Once a month your Technician will stop by and provide a thorough inspection to ensure machines are operating correctly, staff is trained properly, and levels are recorded accurately.

Every preventative maintenance visit and service call ends with a report of the work performed, the parts replaced, and the current chemical levels. The report is e-mailed to you and anyone else who needs it.

Process

- Our Service Technicians perform a preventative maintenance visit
- Facility manager signs off on the evaluation
- Report is e-mailed to the General Manager and other designated individuals

SUPPLIES + SUPPORT
