

FACILITY CARE **SURFACES**

E8 INSIGHT

Did you know that surface cleaning can reduce allergens in the environment and improve indoor air quality?

Clean Surfaces. Expert Results.

Whether at school, in the office, at a restaurant, or in a hotel — surfaces are everywhere. Unfortunately surfaces often get overlooked during everyday cleaning. Cleaning surfaces is crucial for maintaining a healthy and hygienic environment. This process removes dirt, bacteria, and viruses that can cause illness and disease. In settings such as healthcare facilities and food preparation areas, preventing the spread of infections and ensuring safety is essential. Regular cleaning helps to preserve the appearance and condition of surfaces, making them last longer. Regular sanitizing or disinfecting helps to reduce the risk of pathogens being spread from surface contact. Sometimes these words are used interchangeably - what is the difference between cleaning, sanitizing, and disinfecting?

Cleaning removes germs and dirt from surfaces, which can help prevent the spread of disease and illness. When surfaces are cleaned, dusted, and polished regularly, it reduces the amount of germs present, making it less likely for individuals to come into contact with them and become sick.

Sanitizing lowers the number of germs on surfaces and objects in order to reduce the risk of infection or disease transmission. Sanitizing involves using chemicals or other agents to kill or neutralize a high percentage of germs, such as bacteria, viruses, and fungi, on a surface. This process can be especially important in healthcare settings, foodservice industries, and other areas where there is a higher risk of exposure to germs.

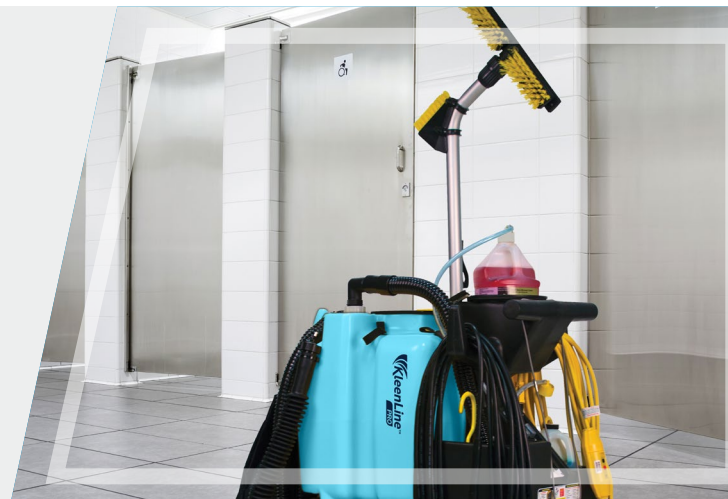

Disinfecting kills germs on surfaces and objects, making them safe for use. Disinfecting agents destroy or inactivate harmful pathogens such as bacteria, viruses, and fungi, which can cause infections and diseases. As a final step to your cleaning routine, disinfecting is one of the most effective ways to maintain a clean and healthy environment.

Solve your restroom cleaning challenges using one comprehensive system, the **KleenLine™ Pro Versa** cleaning caddies. These no-touch cleaning systems combine automatic chemical metering and injection, an indoor pressure washer, and a powerful wet vacuum into an integrated system designed to remove the maximum amount of bio pollution. This system enables workers to thoroughly clean without touching contaminated surfaces, resulting in more hygienic and sanitary restrooms.

Ensure A Thorough & Effective Clean.

Determining whether the surface you intend to clean is hard or soft is vital in preserving the surface's material. Cleaning hard surfaces involves using a cleaning solution and physical scrubbing or wiping. Hard surfaces are less susceptible to damage from harsh cleaning chemicals and mechanical scrubbing. In contrast, cleaning soft surfaces requires more delicate handling. Harsh chemical cleaners and mechanical scrubbing can damage soft surfaces, so they must be cleaned using gentler cleaning methods such as steam or dry cleaning. Soft surfaces may also require special cleaning solutions designed specifically for the type of material they are made of, such as wool or silk. Knowing how to clean the different types of surfaces in your facility will ensure that you can effectively clean and maintain them without causing damage or wear.

SOFT SURFACES

HARD SURFACES

Upholstery	Countertops
Draperies	Door Handles
Cubicles	Walls

Maintaining a clean and healthy work environment through effective surface cleaning and disinfecting is essential. Envoy Solutions offers WAXIE brand surface disinfectants and cleaning solutions to meet all your cleanliness and disinfecting challenges — with good health in mind. **WAXIE HP Disinfectant Cleaner** is a one-step germicidal disinfectant cleaner and deodorant designed for general cleaning, disinfecting, and controlling mold and mildew odors on hard and non-porous surfaces made without harsh chemicals.

Quality Solutions For Any Application.

COMMERCIAL REAL ESTATE

- Door Handles and Staircase Handrails
- Elevator and Vending Machine Buttons
- Light Switches
- Keyboards, Computer Mice, Telephones and Headsets
- Copier/Print Machine Buttons
- Conference Room Tables and Chairs
- Water Cooler Handles
- Common Area Tables and Seating
- Break Room Appliances and Countertops
- Common Area Touch Screens (For Example, In A Lobby Or Reception Area)
- Restroom Surfaces

EDUCATION

- Chairs, Desks and Tables
- Door Handles and Handrails
- Lockers and Handles
- Restroom Surfaces
- Cafeteria Counters and Sinks
- Telephones and Light Switches
- Computer Mice and Keyboards
- Whiteboards and Chalkboards
- Gym/Playground Equipment
- Drinking Fountains
- Shared Classroom Supplies (Markers, Pencils, Crayons, Glue Sticks, Etc.)

FOODSERVICE

- Sinks and Countertops
- Cutting Boards
- Cabinet Shelves
- All Handles
- Refrigerator Shelves and Storage Bins
- Waste Receptacles
- Kitchen Equipment and Appliances
- Tables and Chairs
- Walls
- Utensils and Dishes
- Condiment Bottles and Dispensers
- Menus
- Restroom Surfaces

HEALTHCARE

- Nurse Call Boxes
- Telephones and Remotes
- Bedside Tables and Trays
- Walls, Windows, and Blinds
- Sinks, Countertops, and Workstations
- Medical Equipment and Devices
- Door Handles, Handrails, and Elevator Buttons
- Operating Room Tables and Lights
- Examination Tables and Chairs
- Waiting Room Furniture
- Toilets, Urinals, and Stall Partitions
- Food Preparation and Serving Areas

HOSPITALITY

- Restaurant Tables and Chairs
- Guest Room Surfaces (Beddings, Furniture, Door Handles, Drawers, Remote Controls, Etc.)
- Lobby and Reception Areas (Check-In Counters, Etc.)
- Elevator Buttons, Handles, and Walls
- Restroom Surfaces
- Kitchen Surfaces
- High-Touch Surfaces (Doorknobs, Light Switches, Tables/Chairs, Etc.)

INDUSTRIAL

- Door Handles and Walls
- Racks and Shelving
- Windows
- Desks, Chairs, and Counters
- Keyboards, Computer Mice, Telephones, and Headsets
- Workspaces
- Production Lines
- Electronics
- Manufacturing Equipment
- Break Room Appliances and Counters
- Lockers and Handles
- Restroom Surfaces

Delivering Value Every Day.

Together we can evaluate and take actionable steps to create a clean and green building environment at the total lowest cost. Envoy Solutions delivers strategic services and product consistency to keep your facilities cleaner, more sustainable, people safer, and operations more productive every day. Keeping surfaces like desktops, tabletops, countertops, shelves, door handles, light switches, faucets, and toilet handles clean is about more than just removing the visible dirt. While it is important to “clean for appearance” by cleaning up all of the dirt you can see, it is also critical to “clean for health” by implementing a cleaning regimen that removes or inactivates pathogens which may not be visible to the naked eye and are present on these surfaces as well.

Clear SOPs + Trained Workers Yield Consistent, Effective, and Efficient Results

Clean Surfaces + Disinfected Touchpoints
Increase Building Occupant Wellness

Clean Carts + Color-Coded Tools
Prevent Cross Contamination

Standardized Products, SDS, and
Secondary Labels Streamline Training

Dwell times help establish the necessary contact time required for a disinfectant or sanitizer to effectively eliminate harmful microorganisms.

Mastering Challenges In Essential Spaces.

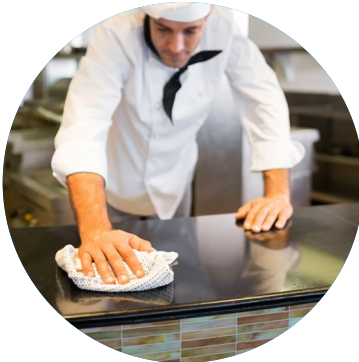

We've got all the quality tools and solutions designed to assist you in overcoming the toughest challenges, regardless of the environment or industry, that can be tailored to meet your organization's specific needs. Let our team of experts provide guidance and support to help you overcome complexities to achieve your cleaning goals. We offer training programs and workshops to equip your team with the necessary skills and knowledge to implement best practices while utilizing our equipment. No matter the scale of your obstacles, our quality tools and solutions are here to assist you in achieving long-lasting improvements in productivity, cleanliness, and overall building occupant health.

CHEMICALS

Whether you prefer traditional chemistry or more sustainable options, we have solutions to clean, dust, polish, protect, sanitize, and disinfect any surface. Neutral pH, alkaline, or acidic chemicals - liquids, powders, or scouring cremes - traditional or green chemistry - we've got you and your surfaces covered.

- All-Purpose, Restroom, and Glass Cleaners
- Degreasers and Graffiti Removers
- Stainless Steel and Wood Polishes
- Aerosol and Liquid Dusting Aids
- Protectants and Restorers
- Foodservice and No-Rinse Sanitizers
- Hydrogen Peroxide, Quat, Bleach, Citric Acid, Sodium Dichloroisocyanurate (NaDCC), and Alcohol Disinfectants

TOOLS + ACCESSORIES

We offer an extensive range of tools to help dust or apply chemicals, help scrub or wipe up, and accessories to help transport all your cleaning supplies. No matter what surface cleaning task you need to tackle, our comprehensive range of tools and accessories will meet your needs and aid in keeping your spaces spotless.

- Microfibers, Towels, Rags, and Wipers
- Sponges, Hand Pad, and Brushes
- Strip Washers, Squeegees, and Buckets
- Scrapers and Putty Knives
- Dusters and Dusting Cloths
- Trigger/Pump Up Sprayers and Bottles
- Janitor Carts

EQUIPMENT

We provide equipment specially designed to maximize efficiency and minimize labor costs associated with surface cleaning. From equipment to spray down surfaces, apply cleaning chemistry, provide some extra scrubbing power, vacuum everything up, or to do a little bit of all of these tasks – we have the right tools and cleaning solutions to get the job done, no matter the size or type of surface.

- No-Touch Cleaning Caddies
- Pressure Washers
- Electrostatic Sprayers
- Steam/Vapor Cleaners
- Vacuums
- Carpet Extractors
- Orbital Scrubbers

Essential 8 Solutions & Standards.

THE 8 SOLUTIONS

In every facility assessment, we screen for these 8 solutions:

- 1 Surfaces
- 2 Floors
- 3 Indoor Air Quality
- 4 Personal Care
- 5 Waste
- 6 Fixtures
- 7 Functional Supplies
- 8 Processes

THE STANDARDS

For each solution, we assess by the following four standards:

1. **Cleanliness:** Systems in place to ensure building spaces are clean and free of unwanted matter and particulates.
2. **Health & Safety:** Systems in place to contribute to the wellness of building occupants, the minimization of pathogens, and the mitigation of potential safety hazards, with cleaning workers trained on how to properly use cleaning products and equipment.
3. **Productivity:** Systems in place to standardize and mechanize the cleaning process, with cleaning workers trained to maximize efficiency, minimize waste, and achieve best value.
4. **Sustainability:** Systems in place to utilize third-party certified cleaning products and equipment wherever possible to protect human health while minimizing impacts on the environment.

FOODSERVICE

A complete foodservice solution that combines food safety and operational expertise with professional-grade products to improve efficiency and effectiveness.

FACILITY CARE

A complete facility care solution that combines laborsaving and low environmental impact products with professional, safe, and efficient cleaning procedures at the lowest total cost.

PACKAGING

A complete industrial packaging solution that delivers a comprehensive assessment of your packaging operation to protect your most critical products in transit while reducing costs and increasing productivity.

Essential 8 is an in-depth analysis of eight key criteria in your overall operation, so that we can deliver customized solutions to create healthier, safer, more productive, and more sustainable environments in foodservice, facility care, and industrial packaging where you live, learn, and work.

Envoy Solutions is a specialized distributor and solution provider serving the US market through a family of the nation's best regional distributors. We specialize in facility care, foodservice, packaging, and marketing execution. We're people who listen, roll up our sleeves, and do the heavy lifting. We offer a broad catalog of top brands and products, along with deep expertise and advice, to help our client-partners succeed. We are driven to make facilities cleaner and more sustainable, people safer, and operations more productive, every day.
