Overall CRA Rating

Bank's CRA Rating: This bank is rated Satisfactory

The following table indicates the performance level of Wilmington Savings Fund Society FSB (WSFS) with respect to the Lending, Investment, and Service Tests:

Performance Levels	Performance Tests		
	Lending Test*	Investment Test	Service Test
Outstanding		X	
High Satisfactory	X		X
Low Satisfactory			
Needs to Improve			
Substantial Noncompliance			

* The Lending Test is weighted more heavily than the Investment and Service Tests when arriving at an overall rating.

The major factors that support this rating include:

- The Lending Test rating is based primarily on the high satisfactory performance in the Philadelphia CSA. The performance of the bank's community development (CD) lending had a neutral impact in the rating areas.
- The Investment Test rating is based on the outstanding performance in the Philadelphia CSA. The bank exhibits good responsiveness to credit and economic development needs.
- The Service Test rating is based primarily on the high satisfactory performance in the Philadelphia CSA. Service delivery systems are accessible to geographies and individuals of different income levels in the bank's assessment areas (AA).

Lending in Assessment Area

An adequate percentage of the bank's loans are in in its AAs.

The bank originated and purchased 60.7 percent of its total loans inside the bank's assessment area(s) (AAs) during the evaluation period. This analysis is performed at the bank, rather than the AA level. This percentage does not include extensions of credit by affiliates that may be considered under the other performance criteria.

Description of Bank

Wilmington Savings Fund Society, FSB (the bank) is an interstate savings bank headquartered in Wilmington, Delaware.

The bank is a full-service bank with 92 branches and 99 deposit-taking automated teller machines (ATMs). For this performance evaluation the bank has three rating areas: Philadelphia Combined Statistical Area (Philadelphia CSA) and the states of Delaware and New Jersey. Refer to the MMSA or State rating sections of this evaluation for details on the bank's performance by area.

The bank's business strategy is to provide banking products and financing to individuals, families, and businesses within the bank's footprint. The bank's lending focuses on home mortgage loans and small loans to businesses. The bank is aligned into four business segments consisting of commercial banking; bank investment banking (asset management); personal banking; and healthcare services.

According to the Federal Deposit Insurance Corporation (FDIC) Deposit Market Share Report dated June 30, 2022, the bank had total deposits of \$17.4 billion. The bank ranked ninth in deposit market share in the Philadelphia CSA. As of December 31, 2022, the bank had total assets of \$19.8 billion, total loans of \$12 billion, and tier 1 capital of \$2 billion.

The bank acquired Bryn Mawr Trust Company January 1, 2022, which added 39 branches to the bank's AA.

There are no legal, financial, or other factors that may impede the bank's ability to meet the credit needs in its AAs. The bank was rated "Outstanding" at the last published CRA examination dated October 26, 2020.

Scope of the Evaluation

Evaluation Period/Products Evaluated

The CRA evaluation period for HMDA, small business, and small farm loans is January 1, 2020, through December 31, 2022. The evaluation period for CD loans, Investment Test, and Service Test is January 1, 2020 through December 31, 2022. Separate analysis periods (2020-2021 and 2022) were used due to the decennial census effect on census tract incomes. Small business and small farm loans for 2022 were not compared to 2022 aggregate peer lending data because it was not available. Primary loan products, for the purpose of this evaluation, are products where the bank originated at least 20 loans within an AA during the analysis period. In our evaluation of the home mortgages for the Lending Test, we considered and concluded upon home purchase, home refinance, and home improvement loans in aggregate. Multifamily loans meeting the CD definition were considered as part of the evaluation of CD lending.

Selection of Areas for Full-Scope Review

In each state where the bank has an office, one or more AA(s) within that state was selected for a full-scope review. For purposes of this evaluation, bank delineated assessment areas located within the same metropolitan statistical area (MSA), multistate metropolitan statistical area (MMSA), or combined statistical area (CSA) are combined and evaluated as a single AA. These combined AAs may be evaluated as full- or limited-scope. Refer to the “Scope” section under each State Rating section for details regarding how full-scope AAs were selected. Refer to appendix A, Scope of Examination, for a list of full- and limited-scope AAs.

For the lending test, greater weight was given to HMDA loans than small business and small farm loans when determining ratings for the geographical and borrower distribution in the Salisbury MSA. Small farm loans were not considered in the Salisbury MSA and the Philadelphia CSA during the 2022 analysis period where there were less than 20 loans during the analysis period.

Ratings

The bank’s overall rating is a blend of the state ratings, and where applicable, multistate ratings.

The Philadelphia CSA received the greatest weight in this evaluation. The Philadelphia CSA represents the largest AA for the entire bank with 95 percent of deposits, 94.6 percent of branches, and 93.1 percent of all bank loans.

The MMSA and state ratings are based on performance in all bank AAs. Refer to the “Scope” section under each State and MMSA Rating section for details regarding how the areas were weighted in arriving at the respective ratings.

Lending Activity

To assess the responsiveness of the bank’s lending activity in each AA, market share percentage and rank were used for the comparison between the respective loan products (home mortgage, small business, and small farm) and deposits. Common year data were compared when available. For example, home mortgage data for the analysis periods of 2020-2021 and 2022, respectively, were compared to

deposit data for the same years. The only difference is 2022 data were not available for small business and small farm lending.

The OCC determined lending activity responsiveness in each AA by comparing the bank's market rank percentage for deposits to each lending product market rank percentage. In addition, examiners divided the bank's deposit and lending market ranks by the total number of depository institutions and lenders, respectively. This approach takes into consideration the level of competition for deposits and home mortgage, small business, and small farm loans within the AA.

Description of Factors Considered Under Each Performance Test

Lending Test

The bank originated a substantial volume of PPP loans during the evaluation period. Between 2020 and 2021, the bank originated 4,962 PPP loans totaling \$555 million. Borrower revenue information was not required in underwriting PPP loans and the bank did not obtain revenue information for the significant majority of its PPP loans. As a result, the bank has a substantially higher volume of small business loans with incomes not reported in each of its assessment areas. Interagency guidance¹ states, "When evaluating CRA performance, the agencies will take into account the unique circumstances affecting borrowers and banks resulting from the COVID-19 emergency and will not penalize a bank for making a large volume of loans for which gross annual revenue information is not available." To fully consider the bank's lending patterns within the context of the PPP program, OCC examiners analyzed bank performance both including and excluding PPP loans for which income was unavailable or uncollected. This generally resulted in better performance when considering the *Distribution of Loans by Income Level of the Borrower* for small businesses. The impact of this analysis is described in the Lending Test section of each full-scope assessment area.

In the full-scope AAs, examiners gave consideration to branches located in middle- or upper-income geographies that improved accessibility to bank products and services for customers in low- and moderate-income geographies. Bank management provided data on the percentage of accounts held in branches in middle- or upper-income geographies by customers residing in low- or moderate-income geographies. Bank management also provided data showing branches that are physically located within a very short distance from a low- or moderate-income geography with no obstructions interfering with the customers access to the branch in the middle- or upper-income geography. Positive consideration was given to the middle- and upper-income branches located in close proximity to low- or moderate-income geographies and increasing the access to retail banking services for customers in those geographies.

Discriminatory or Other Illegal Credit Practices Review

Pursuant to 12 C.F.R. §25.28(c) in determining a national bank's or federal savings association's (collectively, bank) CRA rating, the OCC considers evidence of discriminatory or other illegal credit practices in any geography by the bank, or in any assessment area by an affiliate whose loans have been considered as part of the bank's lending performance. As part of this evaluation process, the OCC consults with other federal agencies with responsibility for compliance with the relevant laws and regulations, including the U.S. Department of Justice, the U.S. Department of Housing and Urban Development, and the Consumer Financial Protection Bureau, as applicable.

The OCC has not identified that this institution or any affiliate whose loans have been considered as part of the institution's lending performance has engaged in discriminatory or other illegal credit practices that require consideration in this evaluation.

The OCC will consider any information that this institution engaged in discriminatory or other illegal credit practices, identified by, or provided to the OCC before the end of the institution's next performance evaluation in that subsequent evaluation, even if the information concerns activities that occurred during the evaluation period addressed in this performance evaluation.

Multistate Metropolitan Statistical Area Rating

Philadelphia CSA

CRA rating for the Philadelphia CSA²: Satisfactory

The Lending Test is rated: High Satisfactory

The Investment Test is rated: Outstanding.

The Service Test is rated: High Satisfactory

The major factors that support this rating include:

- Lending levels reflect good responsiveness to credit needs in its AA;
- The bank exhibits an adequate geographic distribution of loans in its AAs, given the strong level of competition;
- The bank exhibits a good distribution of loans among individuals of different income levels and businesses of different sizes;
- The bank made an adequate level of CD loans;
- The bank exhibits an outstanding level of investments and grants;
- Service delivery systems are reasonably accessible to geographies and individuals of different income levels in the AAs; and
- The bank was a leader in conducting or supporting CD services in the AA.

Description of Bank's Operations in Philadelphia CSA

The Philadelphia CSA represents the largest AA for the entire bank with 95 percent of deposits, 94.6 percent of branches, and 93.1 percent of all bank loans. The bank chose full counties in the AA. The bank offers a full range of loan and deposit products and services in its AA through its branches.

Refer to appendix A: Scope of the Examination – List of Assessment Areas and Type of Examination for the counties used to form the AAs.

Based on FDIC deposit market share data as of June 30, 2022, the bank had \$16.6 billion in deposits representing a 2.8 percent deposit market share and is ranked ninth out of 95 financial banks doing business in the AA. The largest depository institutions include Capital One, National Association (NA) and TD Bank, NA.

The bank originated and purchased 92 percent of total bank loans in the rating area. Home mortgages

² This rating reflects performance within the multistate metropolitan statistical area. The statewide evaluations do not reflect performance in the parts of those states contained within the multistate metropolitan statistical area.

represented 59 percent, loans to small businesses represented 40.8 percent, and small loans to farms represented 0.2 percent of lending in the rating area.

Philadelphia CSA

Examiners performed 17 community contacts addressing the needs and in the AA during the evaluation period. Community contacts consisted of nonprofit organizations specializing in economic development, housing, and small business development. Community contacts identified the following needs in the AA:

- Affordable housing and loan programs
- Access to financial literacy education
- Small business loans
- Increased access to working capital for existing businesses
- Increased access to branch locations in LMI areas

The bank identified the need for affordable housing, education and workforce development, and small business assistance as needs in the AA. The bank invested in mortgaged-backed securities (MBSs) benefitting LMI borrowers. The bank financed various CD loans to develop and renovate housing to address affordable housing and to provide financial education, including multiple work development programs and workshops for LMI youth in the community. The bank implemented mortgage lending programs focused on assisting LMI families with their first home purchase. The programs offer down payment assistance and closing cost assistance. The bank continues to assist small business development, as a Small Business Administration (SBA) 504 lender and provider of SBA 7A loans. The bank established a small business loan program, providing lines of credit and term loans to small businesses in need of working capital.

One method of assessing housing affordability in the Philadelphia CSA is to compare the adjusted median family income averaged for the CSA to median housing value. Assuming a 30-year mortgage with a five percent interest rate, and not accounting for a down payment, homeowner insurance, real estate taxes, or any additional monthly expenses, a low-income borrower making \$36,900 per year (or less than 50 percent of the 2022 FFIEC adjusted median family income in the AA) could afford a \$171,845 mortgage with a payment of \$923 per month. A moderate-income borrower making \$59,040 per year (or less than 80 percent of the 2022 FFIEC adjusted median family income in the AA) could afford a \$274,952 mortgage with a payment of \$1,476 per month. This illustrates that low- and moderate-income borrowers would be challenged to qualify for a mortgage loan in the AA with an estimated payment of \$1,744. The median housing value in the AA is \$324,900 and \$285,000 in 2020 and 2022 reflecting a percent change of 14 percent from 2020 to 2022 according to Realtor.com data.

According to the May 2023 Moody's Analytics report, the AA strengths are world-class educational institutions, center for healthcare and medical research, and a well-developed port and international airport. The 2022 unemployment rate for the AA was 5 percent compared to 11.3 percent in 2020. The leading industries by wage tier include colleges, universities, and professional schools; federal government; management of companies and enterprises; and offices of physicians. Major employers include University of Pennsylvania Health Systems, Thomas Jefferson University and TJU Health System Inc. Children's Hospital of Philadelphia, and Comcast.

Scope of Evaluation in Philadelphia CSA

A full-scope review of the Philadelphia CSA was performed as it was the only AA in the rating area. Bank delineated AAs located in the same MSA are combined, analyzed, and presented as one AA for purposes of this evaluation. Refer to appendix A - Scope of Examination, for a list of all AAs under review.

Home mortgage lending by number and dollar amount represented more than 62.4 percent of the home mortgage, small business, and small farm lending during the evaluation period. Home mortgage lending was given more weight when drawing conclusions.

Home mortgage lending during the 2020-2021 analysis period, by number and dollar amount, represented more than 71.2 percent of home mortgage lending and was given more weight than

2022 lending when drawing home mortgage conclusions.

Small business lending during the 2020-2021 analysis period, by number and dollar amount, represented more than 78.3 percent of small business and small farm lending and was given more weight than 2022 lending when drawing small business conclusions. Small farm loans were only analyzed during the 2020-2021 analysis period because the bank did not originate or purchase more than 20 loans in 2022.

CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN PHILADELPHIA CSA

LENDING TEST

The bank's performance under the Lending Test in the Philadelphia CSA is rated High Satisfactory.

Based on a full-scope review, the bank's performance in the Philadelphia CSA is good.

Lending Activity

Based on the tables below, lending levels reflected good responsiveness to AA credit needs, taking into account the number and dollar amount of home mortgage, small business, and small farm loans originated and purchased relative to the bank's capacity based on deposits, competition, and market presence.

Number of Loans					
Assessment Area	Home Mortgage	Small Business	Small Farm	Community Development	Total
Philadelphia CSA 2020-2021	7,576	6,363	33	48	14,020
Philadelphia CSA 2022	3,070	1,014	3	12	4,099

Dollar Volume of Loans					
Assessment Area	Home Mortgage	Small Business	Small Farm	Community Development	Total
Philadelphia CSA 2020-2021	1,788,267	873,387	2,136	98,203	2,761,993
Philadelphia CSA 2022	651,445	190,020	228	32,299	873,992

The following factors support the bank's good responsiveness to community credit needs:

2020-2021

- The bank's deposit market share is (1.6 percent) and is ranked 9 of 99 depository institutions in the AA.
- Competition for loans is significant in the AA. There are a total of 891 residential mortgage lenders, 316 small business lenders, and 36 small farm lenders in the AA.

- The bank's market share (1.3 percent) and rank (18) for mortgage lending are below those for deposits in the AA. However, the ranking for mortgage lending is well above to the rank for deposits when considered in relation to the number of competitors. The deposit rank is in the 10th percentile and the bank's mortgage lending rank is in the 3rd percentile.
- The bank's market share (2.9 percent) for small business lending is above the market share for deposits. When considered in relation to the number of competitors, the bank's small business lending rank (9th percentile) is above the deposit rank.
- Small farm lending is not a strategic focus for the bank and the market share (0.5 percent), and rank (21) are significantly below those for deposits and reflect the bank's primary focus on small business and residential mortgage lending. The rank for small farm lending (59th percentile) remains significantly below the rank for deposits when considered in relation to the number of competitors.

2022

- The bank's deposit market share is (2.8 percent) and is ranked 9 of 95 depository institutions in the AA.
- Competition for loans is significant in the AA. There are a total of 869 residential mortgage lenders in the AA.
- The bank's market share (1.7 percent) and rank (13) for mortgage lending are well below those for deposits in the AA. However, the ranking for mortgage lending is well above the rank for deposits when considered in relation to the number of competitors. The deposit rank is in the 10th percentile and the bank's mortgage lending rank is in the 2nd percentile.
- Small business data was not evaluated because the data was not available at the time of the evaluation.

Distribution of Loans by Income Level of the Geography

The bank exhibits an adequate geographic distribution of loans in its AA.

Home Mortgage Loans

Refer to table O of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

2020-2022

The geographic distribution of the bank's home mortgage lending was poor.

2020-2021

The geographic distribution of the bank's home mortgage lending was poor. The proportion of loans was significantly below the percentage of owner-occupied housing units in low-income geographies and well below the aggregate. The proportion of loans was well below the percentage of owner-occupied housing units and the aggregate in moderate-income geographies.

2022

The geographic distribution of the bank's home mortgage lending was adequate. The proportion of loans was well below the percentage of owner-occupied housing units and below the aggregate in low-income geographies. The proportion of loans was below the percentage of owner-occupied housing units and well below the aggregate in moderate-income geographies.

Small Loans to Businesses

Refer to table Q of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

2020-2022

The geographic distribution of the bank's small loans to businesses was good.

2020-2021

The geographic distribution of the bank's small loans to businesses was good. The proportion of loans was below the percentage of businesses in low-income geographies and somewhat near to the aggregate. The proportion of loans was near to the percentage of businesses in moderate-income geographies and the aggregate.

2022

The geographic distribution of the bank's small loans to businesses was good. The proportion of loans was below the percentage of businesses in low-income geographies and somewhat near to moderate-income geographies.

Small Loans to Farms

Refer to table S of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to farms.

2020-2021

The geographic distribution of the bank's small loans to farms was adequate. The bank did not originate small loans to farms in low-income geographies. There were also no aggregate small loans to farms originated in low-income geographies.

Lending Gap Analysis

Maps of the bank's lending, supervisory data, and other summary reports were reviewed and there were not any unexplained conspicuous gaps in the bank's lending.

Distribution of Loans by Income Level of the Borrower

The bank exhibits a good distribution of loans among individuals of different income levels and business and farms of different sizes.

Home Mortgage Loans

Refer to table P of appendix D for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

2020-2022

The borrower distribution of the bank's home mortgage lending was excellent.

2020-2021

The borrower distribution of the bank's home mortgage lending was excellent. The proportion of loans was well below the percentage of low-income families and exceeded the aggregate. The proportion of loans was near to the percentage of moderate-income families and the aggregate.

2022

The borrower distribution of the bank's home mortgage lending was good. The proportion of loans was well below the percentage of low-income families and exceeded the aggregate. The proportion of loans was near to the percentage of moderate-income families and the aggregate.

Small Loans to Businesses

Refer to table R of appendix D for the facts and data used to evaluate the borrower distribution of the bank's originations and purchases of small loans to businesses.

2020-2022

When determining the conclusion in this AA, we considered the fact that 99 percent of the bank's small loans to businesses were PPP loans that did not have revenue information. Based on the data in the tables, the overall borrower distribution of small loans to businesses was adequate. Consideration of the bank's PPP lending had a positive effect on our assessment of the bank's Distribution of Loans by Income Level of the Borrower

The bank did not collect or consider the gross annual revenues in the underwriting of 73.8 percent of its small loans to businesses in the AA. Based on those businesses with known revenues, the bank's percentage of small loans to businesses with revenues of \$1 million or less was significantly below the percentage of businesses with gross annual revenues of \$1 million or less and well below the aggregate distribution of small loans to businesses.

2020-2021

The borrower distribution of the bank's loans to small businesses by revenue was poor. The proportion of loans was significantly below the percentage of small businesses and well below the aggregate.

2022

The borrower distribution of the bank's loans to small businesses by revenue was poor. The proportion of loans was well below to the percentage of small businesses.

Small Loans to Farms

Refer to table T of appendix D for the facts and data used to evaluate the borrower distribution of the bank's originations and purchases of small loans to farms.

2020-2021

When determining the conclusion in this AA, we considered the fact that 94 percent of the bank's small loans to farm were PPP loans that did not have revenue information. Based on the data in the tables and considering the percentage of PPP loans, the overall borrower distribution of small loans to farms was adequate. Consideration of the bank's PPP lending had a positive effect on our assessment of the bank's Distribution of Loans by Income Level of the Borrower

The bank did not collect or consider the gross annual revenues in the underwriting of 73.8 percent of its small loans to farms. Based on those businesses with known revenues, the borrower distribution of the

bank's loans to small farms by revenue was poor. The proportion of loans was well below the percentage of small farms and the aggregate.

Community Development Lending

The bank has made an adequate level of CD loans which had a neutral impact in the overall Lending Test rating in the rating area.

The Lending Activity Tables, shown above, set forth the information and data used to evaluate the bank's level of CD lending. These tables include all CD loans, including multifamily loans that also qualify as CD loans.

The bank originated 60 loans totaling \$130.5 million representing 6.9 percent of allocated tier one capital. The bank utilized CD lending opportunities to meet identified credit needs. The percentage of branches in low-income geographies are well below the percentage of the population in those geographies. The percentage of moderate-income geographies is below the percentage of the population residing in those geographies. The bank has three branches in proximity to serve low-income geographies and 10 branches in proximity to serve moderate-income geographies. The bank provided data showing customers being served in the LMI CTs. This contributed positively to conclusions.

All branches in the AA had deposit-taking ATMs, including those located in or near LMI geographies. The AA also had four additional deposit-taking ATMs not located in a branch, including one in a moderate-income (CT). Retail services offered by the bank include direct deposit, mobile banking, online banking, and bill pay. No significant weight was given to these additional services.

To the extent changes have been made, the bank's opening and closing of branches has generally not adversely affected the accessibility of its delivery systems, particularly in LMI geographies and/or to LMI individuals. The bank closed 12 branches during the evaluation period, including one in a low-income geography and two in moderate-income geographies. The bank consolidated eight branches and closed four branches due to lease expiration.

Services, including where appropriate, business hours, do not vary in a way that inconveniences the various portions of its AA, particularly low and moderate-income geographies and/or individuals. Generally, branches are open 9:00 a.m. to 5:00 p.m. Monday through Thursday; 9:00 a.m. to 6:00 p.m. on Friday; and 9:00 a.m. to 1:00 p.m. on Saturday. Some branches in middle- and upper-income CTs have more limited hours due to the branch being located inside a building with limited access hours. Where walk-up or drive through services are offered, hours typically align with branch hours.

The bank offers traditional banking products, mortgages, and consumer and small business lending and services in all branch locations in the AA.

Community Development Services

The bank is a leader in providing CD services.

During the evaluation period, 135 employees provided services to 93 different nonprofit organizations with 32 employees serving as board or committee members at 42 nonprofit organizations. In total, employees donated approximately 2,480 hours of CD services in the AA. The vast majority of CD service hours focused on providing needed community services to LMI individuals.

Examples of qualified CD services in the AA include:

- One employee donated 115 hours and demonstrated leadership serving as the Chairman of the Board of Directors at a Philadelphia nonprofit organization that provides housing to low-income individuals, age 65 years or older. The employee utilized their expertise reviewing financial statements and provided technical assistance in the areas of financial management and fundraising.
- One employee donated 74 hours to a nonprofit organization whose mission is to unify individuals to distribute meals and services to the homeless in Philadelphia.
- Four employees donated 50 hours to three elementary schools in the AA providing financial literacy education to students where a majority of students receive free or reduced lunch.

One method of assessing housing affordability in the Salisbury MSA is to compare the average adjusted median family income to median housing value. Assuming a 30-year mortgage with a five percent interest rate, and not accounting for down payment, homeowner insurance, real estate taxes, or any additional monthly expenses, a low-income borrower making \$38,048 per year (or less than 50 percent of the 2022 FFIEC adjusted median family income in the AA) could afford a \$177,189 mortgage with a payment of \$951 per month. A moderate-income borrower making \$60,876 per year (or less than 80 percent of the 2022 FFIEC adjusted median family income in the AA) could afford a \$283,502 mortgage with a payment of \$1,522 per month. This illustrates that low- and moderate-income borrowers would be challenged to qualify for a mortgage loan in the AA with an estimated payment of \$2,657. The median housing value in the AA is \$494,990 and \$329,945 in 2020 and 2022 reflecting a percent change of 50 percent from 2020 to 2022 according to Realtor.com data.

According to the May 2023 Moody's Analytics report, the AA strengths are low cost of living for the Northeast, popular among tourists and retirees, and single-family housing is undervalued. The 2022

unemployment rate for the AA was 4.4 percent compared to 7.8 percent in 2020. The leading industries by wage tier include physicians' offices, the federal government, management of companies and enterprise, and agencies, brokerages, and other insurance related companies. Major employers include Peninsula Regional Medical Center, Beebe Medical Center, Salisbury University, and Perdue Farms Inc.

Scope of Evaluation in Delaware

A full-scope review of the Salisbury MSA was performed as it was the only AA in the rating area. Bank delineated AAs located in the same MSA are combined, analyzed, and presented as one AA for purposes of this evaluation. Refer to appendix A - Scope of Examination, for a list of all AAs under review.

Home mortgage lending by number and dollar amount represented more than 69.5 percent of the home mortgage and small business lending during the evaluation period. Home mortgage lending was given more weight when drawing conclusions.

Home mortgage lending during the 2020-2021 analysis period, by number and dollar amount, represented more than 68.8 percent of total home mortgage lending in the AA during the evaluation period and was given more weight than 2022 home mortgage lending when drawing home mortgage conclusions. Small business lending during the 2020-2021 analysis period, by number and dollar amount, represented more than 82.1 percent of home small business lending and was given more weight than 2022 lending when drawing small business conclusions. Small farm loans were not analyzed during the evaluation period because the bank did not originate or purchase more than 20 loans in either analysis period.

CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN DELAWARE

LENDING TEST

The bank's performance under the Lending Test in Delaware is rated Low Satisfactory.

Conclusions for Areas Receiving Full-Scope Reviews

Based on full-scope reviews, the bank's performance in the Salisbury MSA is adequate.

Lending Activity

Lending levels reflect excellent responsiveness to AA credit needs considering the number and dollar amount of home mortgage and small business loans relative to the bank's lending capacity based on deposits, competition, and market presence.

Assessment Area	Home Mortgage	Small Business	Small Farm	Community Development	Total
Salisbury MSA 2020-2021	727	453	6	0	1,186

There are no low-income geographies in the AA. The bank's limited branch and deposit presence in the AA are considered when concluding on accessibility of branches in moderate-income geographies. The

percentage of branches in moderate-income geographies is significantly below the percentage of the population residing in those geographies. The bank has one branch in proximity to serve moderate-income geographies. This branch provided additional access to retail banking services to one moderate-income CT. This contributed positively to conclusions. The branch distribution, taking into consideration the bank's limited presence in the AA, is adequate.

All branches in the AA had deposit-taking ATMs, including the branch located near to a moderate-income CT. Retail services offered by the bank include direct deposit, mobile banking, online banking, and bill pay.

To the

extent changes have been made, the bank's opening and closing of branches has adversely affected the accessibility of its delivery systems, particularly LMI geographies and/or to LMI individuals. The bank closed one branch in a moderate-income and one in a middle-income geography in order to consolidate branches.

Services, including where appropriate, business hours, do not vary in a way that inconveniences the various portions of its AA, particularly LMI geographies and/or individuals. Generally, branches are open 9:00 a.m. to 5:00 p.m. Monday through Thursday; 9:00 a.m. to 6:00 p.m. on Friday; and 9:00 a.m. to 1:00 p.m. on Saturday. Where walk-up or drive through services are offered, hours typically align with branch hours.

The bank offers traditional banking products, mortgages, and consumer and small business lending and services in all branch locations in the AA.

Community Development Services

The bank provides an adequate level of CD services.

During the evaluation period, 14 employees provided services to six different organizations. One employee served on the board at one organization. In total, employees donated 32 hours of CD services in the AA. CD service hours focused on community services to LMI individuals. The Covid-19 pandemic and the efforts to address it significantly impacted the bank's ability to conduct CD services.

Examples of qualified CD services in the AA include:

- One employee demonstrated leadership and served 14 hours on the board of a federally qualified health care center that provides primary healthcare, dental, and mental health services to primarily LMI individuals. The employee's financial expertise and experience allowed them to provide fiscal oversight for the organization through a review of financial reports, audits, and budgets.
- Eleven employees donated a combined 13 hours providing financial literacy education to LMI individuals in the AA to schools where a majority of students received free or reduced lunch.

CRA rating for the State of New Jersey: Satisfactory

The Lending Test is rated: Low Satisfactory

The Investment Test is rated: Low Satisfactory

The Service Test is rated: Low Satisfactory

The major factors that support this rating include:

- Lending levels reflect adequate responsiveness to credit needs in its AA;
- The bank did not make any CD loans in the rating area;
- The bank exhibits an adequate level of investments and grants;
- Service delivery systems are reasonably accessible to geographies and individuals of different income levels; and
- The bank provides an adequate level of CD services.

Description of Bank's Operations in New Jersey

The bank has one AA within the state, the Trenton MSA. The bank chose full counties in the AA. The bank offers loan products and services in its AA and has no branches and one deposit taking ATM in the rating area.

Refer to appendix A: Scope of the Examination – List of Assessment Areas and Type of Examination for the counties used to form the AAs.

Based on FDIC deposit market share data as of June 30, 2022, the bank had no deposits in the AA.

The bank originated and purchased less than 1 percent of total bank loans in the rating area. Home mortgages represented 81 percent and loans to small businesses represented 19 Percent of lending in the AA.

Examiners performed two community contacts addressing the needs in the AA during the evaluation period. Community contacts consisted of nonprofit organizations in the AA, specializing in economic development, housing, and commerce. The community contacts discussed economic conditions in the AA, opportunities for financial institutions, and performance of local financial institutions. Community contacts identified the following needs in the AA:

- Affordable housing
- Financial literacy
- Workforce development

The following table provides information on the demographic composition of the bank's full-scope AA(s).

• Scope of Evaluation in New Jersey

A full-scope review of the Trenton MSA was performed as it was the only AA in the rating area. Bank delineated AAs located in the same MSA are combined, analyzed, and presented as one AA for purposes of this evaluation. Refer to appendix A - Scope of Examination, for a list of all AAs under review.

The assessment area was created January 1, 2022 when the bank acquired Bryn Mawr Trust Company and acquired a deposit taking ATM in the Trenton MSA. The bank did not originate or purchase enough home mortgage or loans to small businesses to be able to perform a meaningful aggregate or demographic analysis.

The bank did not originate 20 home mortgage loans nor 20 small business loans in the Trenton MSA throughout the evaluation period; therefore, home mortgage loans and small business loans were not considered primary products. The limited number of home mortgage loans and small business loans are consistent with the overall lower level of transactional and business development activity in the Trenton MSA with its limited presence consisting of one deposit taking ATM and no branch in the AA. Bank geographic and borrower distribution for the Lending Test will not be evaluated for home mortgage and small business performance.

CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS IN NEW JERSEY

LENDING TEST

The bank's performance under the Lending Test in New Jersey is rated Low Satisfactory.

Conclusions for Areas Receiving Full-Scope Reviews

Based on full-scope reviews, the bank's performance in the Trenton MSA is adequate.

Lending Activity

Based on the tables below, lending levels reflected adequate responsiveness to AA credit needs, taking into account the number and dollar amount of home mortgage and small business loans originated and purchased relative to the bank's capacity based on deposits, market presence, and business strategy. This conclusion takes into consideration the bank's presence in the state of New Jersey in the Trenton MSA being limited to one deposit taking ATM for one year of the evaluation period only. The bank's performance is consistent with expectations based upon the very limited presence and time in the AA.

Assessment Area	Home Mortgage	Small Business	Small Farm	Community Development	Total
Trenton MSA 2022	17	4	0	0	21

Assessment Area	Home Mortgage	Small Business	Small Farm	Community Development	Total
Trenton MSA 2022	4,626	1,596	0	0	6,222

Based on the June 30, 2022 FDIC Summary of Deposit Market Share Report, the bank had no deposits in the assessment area.

In home mortgage lending, the bank ranked 89 out of 422 lenders (21st percentile) with a market share of 0.2 percent.

Peer small loans to businesses data was not available for the analysis period.

Community Development Lending

The bank has made few if any CD loans which had a neutral impact the overall Lending Test rating in the rating area. This conclusion takes into consideration the bank's presence in AA being limited to one deposit taking ATM for one year of the evaluation period only. The bank's performance is consistent with expectations based upon the very limited presence and time in the AA.

The Lending Activity Tables, shown above, set forth the information and data used to evaluate the bank's level of CD lending. These tables include all CD loans, including multifamily loans that also qualify as CD loans.

Trenton MSA

The bank did not originate any CD loans during the evaluation period.

Product Innovation and Flexibility

The bank makes limited use of innovative and/or flexible lending practices in order to serve AA credit needs. The bank engaged in limited lending because of its very limited presence and time in the AA. None of the loans originated or purchased by the bank are innovative and/or flexible.

INVESTMENT TEST

The bank's performance under the Investment Test in New Jersey is rated adequate.

Conclusions for Areas Receiving Full-Scope Reviews

Based on full-scope reviews, the bank's performance in the Trenton MSA is Low Satisfactory.

The bank has an adequate level of qualified CD investments and grants, although rarely in a leadership position, particularly those that are not routinely provided by private investors. This conclusion takes into consideration the bank's presence in AA being limited to one deposit taking ATM for one year of the evaluation period only. The bank's performance is consistent with expectations based upon the very limited presence and time in the AA.

The bank exhibits adequate responsiveness to credit and community economic development needs. The bank made one grant in the amount of \$4,500 to an organization supporting community services.

* Prior Period Investments' means investments made in a previous evaluation period that are outstanding as of the examination date.

** Unfunded Commitments' means legally binding investment commitments that are tracked and recorded by the bank's financial reporting system.

SERVICE TEST

The bank's performance under the Service Test in New Jersey is rated Low Satisfactory.

Conclusions for Area Receiving a Full-Scope Review

Based on a full-scope review, the bank's performance in the Trenton MSA AA is adequate.

Retail Banking Services

Delivery systems are reasonably accessible to significant portions of the AA, particularly LMI geographies and/or LMI individuals.

Trenton MSA

The bank has no branch locations or deposit taking ATMs located in a low- or moderate-income CT, nor are there any within a proximity of a low- or moderate-income CT. The bank has no branches and one deposit taking ATM in the AA. This conclusion takes into consideration the bank's presence in AA being limited to one deposit taking ATM acquired in a merger and kept open for only one year of the evaluation period. The bank's performance is consistent with expectations based upon the very limited presence and time in the AA.

The bank complements its traditional service delivery systems with alternative delivery systems, including debit cards, telephone and online banking, electronic bill-pay, and mobile banking options. These systems provide additional delivery availability and access to banking services to both retail and business customers. The OCC does not place significant weight on these services, as no data was available to determine their impact on LMI individuals.

The bank did not open or close branches during the evaluation period.

Services, including where appropriate, business hours, do not vary in a way that inconveniences its AA(s), particularly LMI geographies and/or individuals.

Community Development Services

The bank provides an adequate level of CD services, consistent with its capacity and expertise to conduct specific activities. The bank has one loan production office in the AA. CD services in the AA included one individual who participated in one activity, performing 18 hours of community service activities. The employee served 18 hours as a board member for an organization that raises funds for charities that serve LMI individuals.

Appendix A: Scope of Examination

The following table identifies the time period covered in this evaluation, affiliate activities that were reviewed, and loan products considered. The table also reflects the MSAs and non-MSAs that received comprehensive examination review, designated by the term “full-scope,” and those that received a less comprehensive review, designated by the term “limited-scope”.

Appendix C: Definitions and Common Abbreviations

The following terms and abbreviations are used in this performance evaluation, including the CRA tables. The definitions are intended to provide the reader with a general understanding of the terms, not a strict legal definition.

Affiliate: Any company that controls, is controlled by, or is under common control with another company. A company is under common control with another company if the same company directly or indirectly controls both companies. For example, a bank subsidiary is controlled by the bank and is, therefore, an affiliate.

Aggregate Lending (Aggt.): The number of loans originated and purchased by all reporting lenders (HMDA or CRA) in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the state/assessment area.

Census Tract (CT): A small, relatively permanent statistical subdivision of a county delineated by a local committee of census data users for the purpose of presenting data. Census tracts nest within counties, and their boundaries normally follow visible features, but may follow legal geography boundaries and other non-visible features in some instances, Census tracts ideally contain about 4,000 people and 1,600 housing units.

Combined Statistical Area (CSA): A geographic entity consisting of two or more adjacent Core Based Statistical Areas with employment interchange measures of at least 15. An employment interchange measure is a measure of ties between two adjacent entities. The employment interchange measure is the sum of the percentage of workers living in the smaller entity who work in the larger entity and the percentage of employment in the smaller entity that is accounted for by workers who reside in the larger entity.

Community Development (CD): Affordable housing (including multifamily rental housing) for low- or moderate-income individuals; community services targeted to low- or moderate-income individuals; activities that promote economic development by financing businesses or farms that meet Small Business Administration Development Company or Small Business Investment Company programs size eligibility standards or have gross annual revenues of \$1 million or less; or activities that revitalize or stabilize low- or moderate-income geographies, distressed or underserved nonmetropolitan middle-income geographies, or designated disaster areas.

Community Reinvestment Act (CRA): the statute that requires the OCC to evaluate a bank's record of meeting the credit needs of its entire community, including LMI areas, consistent with the safe and sound operation of the bank, and to take this record into account when evaluating certain corporate applications filed by the bank.

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, other secured consumer loans, and other unsecured consumer loans.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always

equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family, which is further classified into 'male householder' (a family with a male householder and no wife present) or 'female householder' (a family with a female householder and no husband present).

Full-Scope Review: Performance under the Lending, Investment, and Service Tests is analyzed considering performance context, quantitative factors (e.g., geographic distribution, borrower distribution, and total number and dollar amount of investments), and qualitative factors (e.g., innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that conduct business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants, the amount of loan requested, the disposition of the application (e.g., approved, denied, and withdrawn), the lien status of the collateral, any requests for preapproval, and loans for manufactured housing.

Home Mortgage Loans: A closed-end mortgage loan or an open-end line of credit as these terms are defined under §1003.2 of this title, and that is not an excluded transaction under §1003.3(c)(1) through (10) and (13) of this title.

Household: Includes all persons occupying a housing unit. Persons not living in households are classified as living in group quarters. In 100 percent tabulations, the count of households always equals the count of occupied housing units.

Limited-Scope Review: Performance under the Lending, Investment, and Service Tests is analyzed using only quantitative factors (e.g., geographic distribution, borrower distribution, total number and dollar amount of investments, and branch distribution).

Low-Income Individual: Individual income that is less than 50 percent of the area median income.

Low Income Geography: A census tract with a median family income that is less than 50 percent.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the state/assessment area.

Median Family Income (MFI): The median income determined by the U.S. Census Bureau every five years and used to determine the income level category of geographies. The median is the point at which half of the families have income above, and half below, a range of incomes. Also, the median income determined by the Federal Financial Institutions Examination Council (FFIEC) annually that is used to determine the income level category of individuals. For any given area, the median is the point at which half of the families have income above, and half below, a range of incomes.

Metropolitan Division: As defined by Office of Management and Budget, a county or group of counties within a Core Based Statistical Area that contains an urbanized population of at least 2.5 million. A Metropolitan Division consists of one or more main/secondary counties that represent an

employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area: An area, defined by the Office of Management and Budget, as a core based statistical area associated with at least one urbanized area that has a population of at least 50,000. The Metropolitan Statistical Area comprises the central county or counties containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 percent and less than 120 percent, in the case of a geography

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 percent and less than 80 percent, in the case of a geography.

Multifamily: Refers to a residential structure that contains five or more units.

MMSA (state): Any multistate metropolitan statistical area or multistate combined statistical area, as defined by the Office of Management and Budget.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Qualified Investment: A qualified investment is defined as any lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

Rating Area: A rated area is a state or multi-state metropolitan statistical area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multi-state metropolitan statistical area, the institution will receive a rating for the multi-state metropolitan statistical area.

Small Loan(s) to Business(es): A loan included in 'loans to small businesses' as defined in the Consolidated Report of Condition and Income (Call Report) instructions. These loans have original amounts of \$1 million or less and typically are either secured by nonfarm or nonresidential real estate or are classified as commercial and industrial loans.

Small Loan(s) to Farm(s): A loan included in 'loans to small farms' as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland, or are classified as loans to finance agricultural production and other loans to farmers.

Tier 1 Capital: The total of common shareholders' equity, perpetual preferred shareholders' equity with non-cumulative dividends, retained earnings and minority interests in the equity accounts of consolidated subsidiaries.

Upper-Income: Individual income that is at least 120 percent of the area median income, or a median family income that is at least 120 percent, in the case of a geography.

Appendix D: Tables of Performance Data

Content of Standardized Tables

A separate set of tables is provided for each state. All multistate metropolitan statistical areas, if applicable, are presented in one set of tables. References to the “bank” include activities of any affiliates that the bank provided for consideration (refer to appendix A: Scope of the Examination). For purposes of reviewing the Lending Test tables, the following are applicable: (1) purchased loans are treated the same as originations; and (2) “aggregate” is the percentage of the aggregate number of reportable loans originated and purchased by all HMDA or CRA reporting lenders in the MMSA/assessment area. Deposit data are compiled by the FDIC and are available as of June 30th of each year. Tables without data are not included in this PE.

The following is a listing and brief description of the tables included in each set:

- Table O. Assessment Area Distribution of Home Mortgage Loans by Income Category of the Geography** - Compares the percentage distribution of the number of loans originated and purchased by the bank in low-, moderate-, middle-, and upper-income geographies to the percentage distribution of owner-occupied housing units throughout those geographies. The table also presents aggregate peer data for the years the data is available.
- Table P. Assessment Area Distribution of Home Mortgage Loans by Income Category of the Borrower** - Compares the percentage distribution of the number of loans originated and purchased by the bank to low-, moderate-, middle-, and upper-income borrowers to the percentage distribution of families by income level in each MMSA/assessment area. The table also presents aggregate peer data for the years the data is available.
- Table Q. Assessment Area Distribution of Loans to Small Businesses by Income Category of the Geography** - The percentage distribution of the number of small loans (less than or equal to \$1 million) to businesses that were originated and purchased by the bank in low-, moderate-, middle-, and upper-income geographies compared to the percentage distribution of businesses (regardless of revenue size) in those geographies. Because aggregate small business data are not available for geographic areas smaller than counties, it may be necessary to compare bank loan data to aggregate data from geographic areas larger than the bank’s assessment area.
- Table R. Assessment Area Distribution of Loans to Small Businesses by Gross Annual Revenue** - Compares the percentage distribution of the number of small loans (loans less than or equal to \$1 million) originated and purchased by the bank to businesses with revenues of \$1 million or less to: 1) the percentage distribution of businesses with revenues of greater than \$1 million; and, 2) the percentage distribution of businesses for which revenues are not available. The table also presents aggregate peer small business data for the years the data is available.

The total loan amount presented in the tables for each assessment area may differ from the total loan amount reported in the aggregate table due to how the underlying loan data is rounded in each table.

Table S. Assessment Area Distribution of Loans to Farms by Income Category of the Geography - The percentage distribution of the number of small loans (less than or equal to \$500,000) to farms originated and purchased by the bank in low-, moderate-, middle-, and upper-income geographies compared to the percentage distribution of farms (regardless of revenue size) throughout those geographies. Because aggregate small farm data are not available for geographic areas smaller than counties, it may be necessary to use geographic areas larger than the bank's assessment area.

Table T. Assessment Area Distribution of Loans to Farms by Gross Annual Revenues - Compares the percentage distribution of the number of small loans (loans less than or equal to \$500 thousand) originated and purchased by the bank to farms with revenues of \$1 million or less to: 1) the percentage distribution of farms with revenues of greater than \$1 million; and 2) the percentage distribution of farms for which revenues are not available. The table also presents aggregate peer small farm data for the years the data is available.

The total loan amount presented in the tables for each assessment area may differ from the total loan amount reported in the aggregate table due to how the underlying loan data is rounded in each table.

Purchase Products	Description
Conventional Fixed Rate Mortgage	A conventional fixed-rate mortgage offers a fixed interest rate and monthly payment (principal and interest) over the term of the loan. Conventional fixed rate mortgages are a good choice for Customers who plan to stay in the home for many years.
Conventional Adjustable Rate Mortgage (ARM)	Adjustable-rate mortgages (ARMs) have an interest rate that may change periodically depending on changes in a corresponding financial index that's associated with the loan. Therefore, the monthly mortgage payment may increase or decrease if the index rate changes. ARM loan terms are the length of time the interest rate remains fixed over how often the interest rate is subject to change. In a 7/1 ARM, the 7 stands for an initial 7-year period when the interest rate remains fixed, and the 1 shows that the interest rate may adjust once a year thereafter. Adjustable-rate mortgages are a good choice for Customers who plan to move before the end of the introductory fixed-rate period, so they want initial monthly payments lower than a fixed-rate mortgage could offer.
First Time Homebuyer Mortgage	WSFS offers 95% and 97% financing options with or without monthly mortgage premiums.
VA Mortgage Program	The VA Mortgage program is designed for homebuyers and homeowners who are active or former members of the U.S. military, along with their spouses. The program offers up to 100% financing if certain criteria is met as determined by the U.S. Department of Veterans Affairs. No mortgage insurance payments.
USDA Mortgage Program	The USDA Mortgage program is designed to provide affordable mortgage solutions for homebuyers and homeowners in rural communities. The program offers up to 100% financing if certain criteria is met. Mortgage insurance premiums are subsidized.
FHA Mortgage	The Federal Housing Administration (FHA) offers government mortgage loans that have features (such as low down payment options and flexible credit and income guidelines) that may make mortgages easier for first-time homebuyers to obtain. Features include low down payments and flexible credit and income guidelines).
Jumbo Mortgage	A Jumbo Mortgage is for loan amounts exceeding the loan-servicing limits set by Fannie Mae and Freddie Mac. Jumbo mortgages are available for primary residences, second/vacation homes and investment properties, and are available in fixed-rate or adjustable-rate terms. A jumbo loan typically has a higher interest rate and more underwriting requirements.
Neighborhood Opportunity Program	Low down payment options, up to 97% financing for qualified borrowers. Minimal reserves, flexible guidelines. Homebuyer education program, helps borrowers prepare for the loan process and home ownership. Seller's assist up to 6% depending on the loan-to-value. Competitive mortgage rates. No Private Mortgage Insurance required for qualified loans below \$100,000 and/or in a defined low- or moderate-income census tract.
Down Payment Grant Program	Up to \$5,000 assistance with down payment and/or closing costs for eligible borrowers* No required repayment for any grant funds awarded** Flexible guidelines. Can be combined with other programs, including the WSFS Neighborhood Opportunity Program. Homebuyer education program for first-time homebuyers. Up to 6% seller's assist depending upon borrower down payment and program guidelines. Competitive mortgage rates. *May vary based on program underwriting guidelines. Home must be a primary residence located in a census tract where the population is at least a 50% majority minority census tract and the total household income cannot exceed 100% of the census tract median income as determined by HUD based on number of household members. **1099-MISC will be issued to borrower on awarded funds. Grant funds awarded while funds last for the award program year. Loan program is subject to change.
LLC Product	30 year loan offers financing to borrowers where their properties are titled in LLCs.

Refinance Products	Description
Refinance	A refinance allows the opportunity for a Customer to take their existing mortgage, pay it off, and open a new mortgage loan with a reduced interest rate, term, or monthly payment. A Customer may also apply for a “cash-out refinance” for a mortgage in an amount higher than they need to pay it off, and then take the “cash out” of the loan if needed for home improvements, to consolidate debt, or pay for higher education.
Home Affordable Refinance Program (HARP)	HARP was created by the Federal Housing Finance Agency to help homeowners who are current on their mortgage payments but have little to no equity in their homes refinance their mortgage. Qualifying Customers can save money by refinancing with a lower rate or other morefavorable terms. No minimum credit score is required; closing costs can be bundled into new loan so Customers don't need much cash up front.
Government Streamlined Refinance Program	Streamline refinance refers to the refinance of an existing FHA-insured mortgage requiring limited borrower credit documentation and underwriting. Streamline refinances are available under credit qualifying and non-credit qualifying options. "Streamline refinance" refers only to the amount of documentation and underwriting that the lender must perform, and does not mean that there are no costs involved in the transaction.
No-Cost Refinance Program	A no cost refinance is a loan transaction in which WSFS pays settlement costs, including lender fees.
Mortgage Assistance Program	The WSFS Mortgage Assistance Program is in place for borrowers who are experiencing a financial hardship and are in need of assistance. Customers should call WSFS Mortgage at 1-888-992-7729 to speak to a WSFS Mortgage Associate.
Home-Building Products	Description
Construction Loan	Financing for borrowers who own their land and want to build a custom home using a WSFS approved builder.
Custom Home Mortgage Program	A specially-promoted program for borrowers who are looking to buy land, build a home, and take out a permanent mortgage. The program is “packaged” as a progression from 1) Lot Acquisition Loan; to 2) Construction Loan; and finally to 3) Permanent Mortgage. However, a borrower can take advantage of any or all of these products.

Reverse Mortgage Product	Description
Reverse Mortgage	<p>A reverse mortgage allows a Customer to take the equity they've built up in their home over the years and convert it into tax-free cash for their needs today. How much money they're eligible for depends on the home's value, the Customer's age and the specific plan. Qualified Customers must be 62 years of age or older and own their home (those with existing mortgages may also qualify.) The home must be a primary residence and meet the minimum property standards established by the U.S. Department of Housing and Urban Development (HUD). All reverse mortgage borrowers must have reverse mortgage counseling from a HUD-approved counseling agency; counseling covers the mortgages available, the suitability, costs associated with a reverse mortgage, and other services available.</p>
For more information about our mortgage offerings, please ask a WSFS Mortgage Loan Officer or call 1-888-992-7729.

HMDA Mortgage Disclosure Act DATA

The HMDA data about WSFS residential mortgage lending are available online for review. The data show geographic distribution of loans and applications; ethnicity, race, sex, age, and income of applicants and borrowers; and information about loan approvals and denials. These data are available online at the Consumer Financial Protection Bureau's (CFPB) website:

<https://www.consumerfinance.gov/data-research/hmda/>

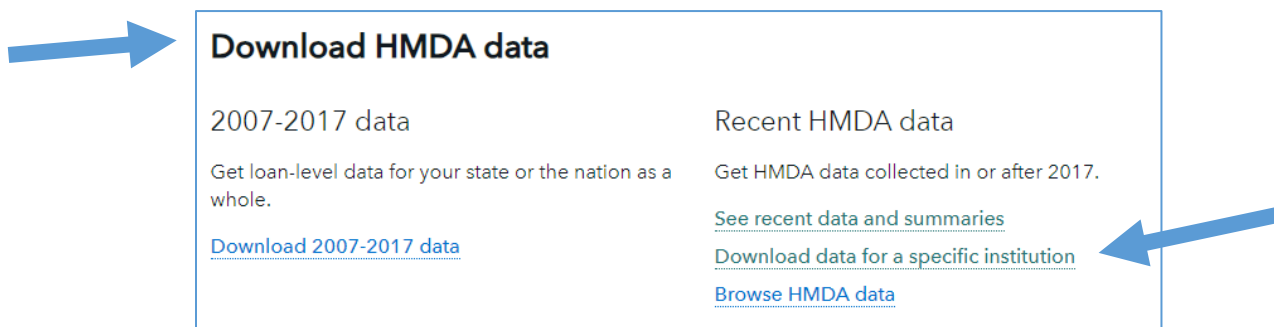

An image of the CFPB website's landing page:

HMDA data for many other financial institutions are also available at this website.

How to find the WSFS Data on the CFPB Website:

1. Go to <https://www.consumerfinance.gov/data-research/hmda/>
2. Scroll down, look for **"Download HMDA data"** section.
3. Click on the **"Download data for a specific institution"** - listed under "Recent HMDA data" as shown in the box below.

- When a new window opens, select the year's data that you would like and type in "Wilmington Savings Fund Society" in the Institution Name Search Box.

About HMDA

The Home Mortgage Disclosure Act (HMDA) requires many financial institutions to maintain, report, and publicly disclose loan-level information about mortgages. These data help show whether lenders are serving the housing needs of their communities; they give public officials information that helps them make decisions and policies; and they shed light on lending patterns that could be discriminatory. The public data are modified to protect applicant and borrower privacy.

HMDA was originally enacted by Congress in 1975 and is implemented by Regulation C.

10. A validity edit helps to verify the accuracy of the data reported. An institution's CRA submission that passes all validity edits does not ensure 100% accurate data. True accuracy is determined during the examination process.
11. A record represents one row of data reported to the Federal Reserve Board. This does not in any way represent the number of loans originated or purchased by the institution.

Footnote:

10. A validity edit helps to verify the accuracy of the data reported. An institution's CRA submission that passes all validity edits does not ensure 100% accurate data. True accuracy is determined during the examination process.

11. A record represents one row of data reported to the Federal Reserve Board. This does not in any way represent the number of loans originated or purchased by the institution.

10. A validity edit helps to verify the accuracy of the data reported. An institution's CRA submission that passes all validity edits does not ensure 100% accurate data. True accuracy is determined during the examination process.

11. A record represents one row of data reported to the Federal Reserve Board. This does not in any way represent the number of loans originated or purchased by the institution.
