

ELITE EDGE PROTECTORS

PRODUCT DESCRIPTION

Manufactured from 100% recycled chipboard (80% post-consumer/20% pre-consumer fibers), these edge protectors provide exceptional durability and load stability.

Designed to prevent compression, edge damage, and shifting during transit, they are ideal for protecting fragile products (such as food and beverage items), high-value palletized goods, and for long distance shipments.

Made in the USA.

FEATURES

- Rigid design helps prevent compression and corner damage during transit
- Prevents compression and edge damage during transit
- Reduces shifting of palletized goods
- Ideal for protecting fragile and high-value products
- Suitable for busy warehouses, manufacturing, and distribution environments
