How to Clean & Disinfect

RESTROOM STALL PARTITIONS

Select an appropriate WAXIE disinfectant that works on hard, non-porous surfaces.

Put on your safety glasses and gloves.

Remove any gross soils from surfaces before disinfectant application.

Consult product label for dilution instructions.

Apply product to the surface of the stall partition, including edges and hard to reach areas with a brush, cloth, sponge or coarse sprayer until the surface is thoroughly wet.

For spray applications, hold 6-8 inches from the surface.

Allow surface to remain wet. See product label instructions for appropriate dwell time.

Wipe all surfaces dry with a clean cloth or allow to air dry.

Recommended Product:

HP Disinfectant Cleaner

Read all product instructions carefully for proper use and maximum effectiveness.
