How to Clean & Disinfect
ELECTRONICS

1 Select an appropriate WAXIE disinfectant that works on hard, non-porous surfaces.

2 Put on your safety glasses and gloves.

3 Consult product label for dilution instructions.

4 Do NOT use abrasive cleaning materials or apply product directly to the surface of electronic devices.

5 Apply the disinfectant to a soft cloth.

6 Gently wipe the surface of electronic devices such as phones, tablet screens, and computers.

7 Allow surface to remain moist. See product label instructions for appropriate dwell time.

8 Wipe dry with a clean cloth or allow to air dry.

Recommended Product:

HP Disinfectant Cleaner

Read all product instructions carefully for proper use and maximum effectiveness.
