

Cleaner, Healthier, Safer & More Productive *with*

WAXIE HP Disinfectants

cleaner

One minute of surface time kills the virus that causes COVID-19 and the flu!

healthier

no sodium hypochlorite (bleach)
no peracetic acids
no quaternary ammonium chlorides
no fragrances or dyes

WAXIE **HP** Disinfectants

more productive

one three-liter bottle makes **52-gallons** of ready-to-use disinfectant, which means more punch with less packaging

safer

WAXIE HP Disinfectants feature a **hydrogen peroxide** based formula that is safer for use around students and on most surfaces in your school

Safely clean & disinfect all high-touch surface areas in your educational facility!
