# Progress without compromising performance and efficiency.

Scotch® High Tack Box Sealing Tape 371+ provides a tamper-evident seal with the highest strength and durability in tough environments. You can be assured your boxes will stay closed throughout the supply chain no matter the percentage of recycled content — even in cold temperatures. Scotch® High Tack Box Sealing Tape 371+ is ideal for food and beverage, electronics and e-fullfillment industries.

## Features and benefits:

- Made with a polypropylene backing containing 60% recycled content.
- Adheres to a variety of surfaces, including on corrugated boxes with 100% recycled content.
- Once applied, performs well at cold and freezer temperatures.
- Tamper-evident, clear tape can be custom printed to promote your brand.
- Quick, easy application by hand, manual dispensers or 3M-Matic™ Case Sealers.

Provides a tamper-evident seal and the fiber pull demonstration shows how much paper fiber the tape pulls off the box upon removal. The higher percent of fiber pull, the stronger the tape bond is to the box.
