### AFFORDABLE REHABILITATION FOR ALL

For many people living with physical disabilities, access to affordable, quality rehabilitation is often costly and tough to come by. The Shelton, Connecticut based organization Moving with Hope aims to change this by offering affordable rehab, exercise and skills training to people living with disabilities year-round. Originally founded in 1984 by Joanna and Tad Duni, Moving with Hope partners with municipal governments, providers, small businesses and non-profits to support clients by accepting donations to provide financial aid, outreach and advocacy.

### STRATEGIC PARTNERSHIP

As a part of a \$400,000 specialized rehabilitation equipment expansion at their facility, Moving With Hope partnered with SportsArt to install the Madonna ICARE System in October 2021, becoming the first rehabilitation clinic in Connecticut to offer one. Selected in part due to its versatility and ability to assist a wide range of clients through their rehabilitation journey, the ICARE has received praise from both clients and trainers alike for it's motor assist capabilities and ability to be customized to the needs of each client.

“

WE RECENTLY EXPANDED OUR FOOTPRINT AND ADDED THE MADONNA ICARE SYSTEM BY SPORTSART BECAUSE OF ITS UNIQUENESS AND VERSATILITY. THE MACHINE'S MOTOR ASSIST CAPABILITIES WILL EMPOWER OUR PATIENTS DURING TREATMENT WHILE ALLOWING OUR CLINICIANS TO FOCUS ON DEVELOPING OVERALL TREATMENT PLANS INSTEAD OF MANUAL MANIPULATION DURING SESSIONS
