

PRODUCT SPECIFICATION SHEET

Enzyme Cleaner & Odor Eliminator

Item No. CHAP12

Description:

A sophisticated bacteria enhanced acid-free cleaner that cleans and eliminates odors at the source. Naturally eliminate foul odors caused by urine, vomit, feces, etc. Safe for any surface not harmed by water. Enzyme Cleaner & Odor Eliminator is water activated and continues working long after product has been applied. Ideally suited for restorative & daily maintenance of high traffic restrooms, outdoor stairwells, loading docks, artificial turf, dog runs, carpeting or anywhere sticky or foul organic material is present and odor elimination is priority.

Features & Benefits:

- Won't damage pipes or traps
- Neutral formula that doesn't contain caustics or acids; safer for the end user

Directions:

Use regularly at 2oz per gallon of water. Mop product onto surface and allow to dry. For quick refresh of the area, spray full strength on or around toilets and urinals to remove the odor source. After use, pour product down drains to eliminate odors from drains. Important: Do not use with extremely hot water, bleach, or disinfectants, as they will reduce product performance. Not suggested for use as an air freshener.

Ideal for use in:

- Mop and bucket
- Spray bottle

CLEANERS

Specifications-
