PFAS-free solutions
Fiber blend packaging

Sustainable solutions, right for you

PFAS-free performance

Made with a proprietary formula, new EarthChoice® PFAS-free fiber blend containers and tableware feature excellent grease performance that holds up to wet, heavy foods.

Commercially compostable

Pactiv Evergreen's fiber blend packaging is made from annually-renewable plant sources. It's BPI-certified to be commercially compostable. Composting packaging with food scraps diverts waste from the landfill, helping reduce greenhouse gas emissions.

Solutions for our customers

Our PFAS-free molded fiber products serve as another example of our commitment to supply customers with the products and solutions they need.

PFAS-free EarthChoice products are BPI certified to be commercially compostable. Facilities may not exist in your area. Not suitable for backyard composting.

Hinged lid containers

These containers make food assembly quick and delivery trouble-free. Available in six industry-standard sizes with a secure closure, you can rely on containers to meet all your takeout needs - from sides to entrees. Designed for takeout and delivery, the stackable containers will help keep food fresh and safe during transport.

Tableware

Our durable bowls, plates and platters are great for dine-in, catering or for sending home with takeout orders. They'll hold up for your needs. Serve hearty soups or pile them up high with picnic foods - they won't soak through.
