

BECOME AN IICRC CERTIFIED COMMERCIAL CARPET MAINTENANCE TECHNICIAN (CCMT)!

SPACE IS LIMITED TO 35 ATTENDEES!

This seminar provides technical information and hands-on practice of the proper procedures, chemicals and equipment needed to clean, remove spots, repair, maintain, and restore all common types of carpeting found in commercial and residential properties.

DETAILS

The course reviews carpet manufacturing, construction, style, fiber characteristics, and installation techniques and how these issues impact cleaning and maintenance results.

All commercially viable carpet and rug cleaning methods (wet, dry, and low moisture) will be discussed, shown, and/or used during the course.

The course will conclude with a discussion of how to plan, set up, and maintain a carpet cleaning and maintenance program in any type and size of facility or business.

Instructor: Wm R. Griffin, President
