Modernizing your business is table stakes in an increasingly competitive landscape. You can count on Tennant's robotic cleaning equipment to help you accelerate innovation. Easily mobilize your teams, boost productivity, and free up more time for the things that move the needle with our industry-leading autonomous floor cleaning machines.

Transform your cleaning program.

Empower your team.

Using cutting-edge technology, exceptional service, and comprehensive support, Tennant's lineup of robotic equipment offers a path toward modernizing your business and revolutionizing your cleaning program.

Harness cutting-edge innovation in minutes.

Robotic floor cleaning equipment is an accessible and effective first step in integrating autonomy into your business: they're thoughtfully designed for effortless integration and instant results.

A clean you can count on.

Our autonomous mobile robot (AMR) portfolio sets a new standard for clean and provides our partners with a revolutionary and reliable cleaning machine. Rely on Tennant's 150 years of industry experience to accelerate your robotic cleaning success.

Elevate your staff and customer experience.

Autonomous floor cleaning machines offer a whole-business solution to improving overall experience: increasing efficiency and empowering employees to tackle more critical tasks.

THE TENNANT FAMILY OF ROBOTIC CLEANING MACHINES

Tennant's robotic floor scrubbers are designed to work safely alongside employees and deliver efficient, thorough cleaning performance using a suite of advanced features.

- Powered by BrainOS®, an advanced artificial intelligence and robotic technology platform from Brain Corp that ensures safe, accurate operation
- Optional ec-H2O NanoClean® technology reduces the amount of detergent and water needed (not available on X4 ROVR or X6 ROVR models)
- Electrically powered and compatible with high-capacity lithium-ion batteries for a sustainable, cost-efficient clean

X4 ROVR

Compact and agile, perfect for small spaces with advanced obstacle detection and minimal manual input.

X6 ROVR

Mid-sized and purpose-built to deliver maximum cleaning coverage with minimal oversight in both tight spaces and expansive areas.

T380AMR

Tailored for mid-sized spaces with narrow aisles—ideal for healthcare, retail, and education.

T7AMR

Optimized for large, open areas like retail stores, convention centers, airports, and universities where efficiency is key.

T16AMR

Built for industrial environments like warehouses, delivering consistent, hands-off cleaning.
