

Gameline Taping Machine

Tools for gym floor professionals

Description

The Gameline Taping Machine is the industry standard. Heavy frame and precision wheels allow for very easy application of tape before painting. Manages the 4 industry standard tape widths through rolling spools. Simple to adjust and swap without the need of tools. The axles and wheels are the most robust in the industry, providing long life and precision results.

- The precision 3" OD rubber wheels allow for a flat install with no gaps or ripples.
- Handles are soft polyurethane for a soft grip that reduces hand fatigue.
- 3 piece 1" solid aluminum round bar to create up to 12' circle with included pivot point (included).
- 2 sets of spools allow using 18mm (3/4"), 24mm (1"), 36mm (1-1/2") and 48mm (2") tape of your choice with 3" (standard size) center hole.
- Solid aluminum pointer bar is standard.
