T661M TREADMILL

The T661M treadmill is meticulously engineered for cardiac and physical therapy facilities to revolutionize rehabilitation practices and offer the best patient care. Its three-point safety stop system features a button positioned on the console, a safety key and emergency stop switch. Extended handrails comfortably accommodate both adult and pediatric patients while a low 6-inch step-up height provides versatility regardless of the patient's age or size.

Also, the maintenance-minimizing ECO-GLIDE™ auto lubrication system keeps the treadmill running at peak capacity while the MyFlex+ omni-directional cushioning provides unmatched support and comfort—minimizing the strain on joints and muscles with each stride. With a variety of preset workouts and ample display readouts, the user is always engaged and informed. Designed to be simple and effective, and loaded with unique features, the T661M will help you more effectively treat more patients.
